Favorable Decision in the Sugar

Duties Caused Refining to Be

Very Active and Strong,

New York, Dec. 3 .- A bumber of cir-

umstances which came to light after the

close of business yesterday served to

stimulate purchases at the opening of

business this morning. These were nota-

bly the decision of the Treasury Depart-

ent to broose the countervailing duties

he St. Paul companies. Next week a number of corporations

will act upon their quarterly dividends, and it is expected that another corporation

the Northern Pacific) will enter the list

The dealings in stocks showed a marked

extent of about 10,000 shares. The favor-

able decision in the sugar duties case

also made the occasion of heavy realizing,

on the day's dealings.

which left the stock only little changed

The pronounced strength in Manhattan

was imported to the general market in the

final dealings, and the close was firm with

the leading shares showing fractional gains

The decision of the Treasury Depart acut to impose countervalling duties, as the Sugar Trust wishes, upon sugar imported from the Netherlands was awaiting the market vesterday morning. On this decision the opening was high and the trading in Sugar and in other securities brisk. But the decision had been discounted fully by the speculators, who were all convinced early in the week that it would soon appear, and that it would be favorable. The people who waited for

onfidence in a further rise and the size Sugar went down immediately after the sening and did not reach the opening igure again all day. No one must fall o give this decision its large importance or belittle the victory of the Sugar Trust. however. The decision means more wealth for the trust, more surplus, and perhaps nore dividends for the fortunate holders of its stock The temporary recession yesterday was only a surface wave. It

vas to have been expected.

the decision, therefore, were played for

opinion of conservative people that Sugar vill have a further advance from these figures this month if there is any strength in the general market whatever. ably in sympathy with Sugar as much as for any other reason, for the general news was good. The trading in bonds was on a arge scale, and this is regarded as on of the most favorable elements in the current speculative situation. The earn ings of St. Paul and Rock Island were ex elent. Despite these facts the market

emputation and there was a bad falling off in the volume of dealings. The general market situation looks bad for the bulls. It is pretty generally admitted that the supposed good effects of the President's message have been dis-counted largely. While there may be higher prices during the next two weeks

was dominated largely by the professional

o one should be surprised if they fail to materialize. St. I bul's earnings for the fourth week f November increased \$189,855. Rook Island's gross earnings for November are

estimated to have increased \$443,000. The directors of St. Louis and San Fran sisco have decided on another 2 per cent lividend on the first preferred, as I predicted they would last week. I feel confident that there will be a movement in

this stock in a very short time. The Flower party in Chicago Gas is talking confidently of much higher prices in Gas. They make the statement that the company is earning more than 6 per cent. The Gas Trust's possible troubles are in significant, and 6 per cent carned should

certainly put the stock above par-

shrinkage in volume today, as compared with resterday. London houses were fairly active dealers on both sides of the account, but were sellers on balance to the 717 Fourteenth St. N. W. OFFICE HOURS—S a.m. to 8 p. m.; Sundays, 10 a. m. to 1 p. m. Consultation free and invited at office or by letter. de2-25cm caused Sugar Refining to be very active and strong in early dealings, but it was

cific are said to be buying. The stock

is attractive at present figures. Mr. Lehman says of cotton:

"There is still a large amount of cottor to come forward, and if this is pressed for said there may be some further de clines. In the event of cotton going lower however, and the figures thus attained being maintained for some time, the acreage for the next crop will certainly be our tailed, and this will probably act as a bullish argument, and create a much nore hopeful feeling. We are conservative, and do not advise extensive buying at these figures, but we are certainly in favor of moderate parchases."

Bradstreet's weekly review of trade will say today: General trade throughout the country has displayed rather more ani-mation, owing to colder weather and the approaching holidays. While clothing, dr goods, bats, shoes, notions, hardware ar fancy groceries have been in a little octter demand, both from pubbers and a retail in the region tributary to Charago, St. Louis Omaha, St. Joseph, St. Paul and Kansa City, the tendency of business has seen to slacken. This is noticeable in iton and steel and in further depression in cetton goods, print-cloths having made a new low record in price.

The domestic grain trade continues to look with equanimity on the unprecedentedly large quantities of wheat exthe continuation of which is an apprecia tion of the relation of supply to demand by the grain trade abroad.

R. G. Dun & Co.'s weekly review o trade today will say. The monthly report of fadures shows defeated habitute of \$11,610,195 in November, against \$12, 700,856 last year. Because of three large fatheres for \$3,250,000, not due to presen conditions, the aggregate in November was only \$1,100,000 less than last year and except for these would have been smaller than in August, September or Oc

The decrease in nearly all branches of business shows that payments have been remarkably good and defaults unusuall small. Other evidences of the state of business are convincing, except in speculative lines. Wages have been voluntarily advanced for nearly 30,000 worker in woolens and iron. Stocks are some what stronger, having advanced \$1.47 for ralways and \$1.57 for trusts. The true value of American railway stocks is steadily rising with carnings, which for November thus far are 20.9 per cent larger than last year, and 3.7 per cent in the same weeks of 1892. Fallures for the week have been 306

in the United States, against 379 last year, and 28 in Canado, against 55 hast and then authoritative denuls. The close fear.
